Hindu Compliance System
KAILASA's

Foreword:

The Supreme Pontiff of Hinduism and the Head of United States of Kailasa, The Living Representative of Paramashiva, His Divine Holiness Bhagavan Nithyananda Paramashivam has formulated KAILASA'S Hindu Compliance System to create, promote, spread and teach the standard procedures for all products and services that are in compliance with Hindu Scriptures. Hinduism has detailed procedures, standards, methodologies for everything. Hinduism is a rich religion with vast choices, It educates and empowers, has a non-restrictive, enlightening and empowering set of Principles to produce and use any product. KAILASA's Hindu Compliance System is working towards recognising the needs of two billion Hindus around the world and therefore works towards compiling the standards, and policies such as - economic policy, religious policy, spiritual policy or strategies or any products and services, as give by Paramashiva in Veda-Agama. KAILASA's Hindu Compliance System will work towards bringing innovation and provide solutions to global challenges by bringing together the various standards, procedures, and guidelines revealed in Hindu Scriptures. Through this System KAILASA will bring together all the experts to compile the standards as per needs of the global hindu diaspora, in accordance with the **śāstra(Hindu Scriptures)**.

The procedures used to develop this document and those intended for its further maintenance are described in **kāmika āgama, uttara pada**

Attention is drawn to the possibility that some of the elements of this document may be the subject of copyrights. VAS shall not be held responsible for identifying any or all such copyrights. Details of any copyrights identified during the development of the document will be in the Introduction and/or on the HCS list of copyright declarations received.

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement. The committee responsible for this document is Hindu Compliance System **HCS TC-1, veda-agamic research expert sub-committee 1**.

Introduction:

This **Hindu Compliance System** provides the fundamental concepts, principles for sustainable solutions for quality control & management (QCM) and provides the foundation for other QCM standards. HCS is intended to help the user to understand the fundamental concepts, principles and vocabulary of quality control & management as per hinduism, in order to be able to effectively and efficiently implement a QCM and realise value from other QCM standards.

This HCS proposes a well-defined QMS, based on a framework that integrates established fundamental concepts, principles, processes and resources related to quality as per veda-agama, in order to help Hindu organizations, Hindu businesses, Hindu Service Industries and the Hindu diaspora around the

world to realize their objectives. It is applicable to all organizations, regardless of size, complexity or business model. Its aim is to increase the organization's commitment to dharma and responsibility in fulfilling the needs and expectations of its customers and interested parties, and in achieving satisfaction with its products and services.

Scope:

This Hindu **Compliance System** describes the fundamental concepts and principles of quality for making a deity which are commonly followed for all the **śaiva sampradāya** in sanatana hindu dharma. This Standard will help organizations, businesses to create the deity with basic proportions and measurements mentioned in Hindu Scriptures which will hold the energy of the deity invoked in this form. This will also be applicable to the following:

- organizations seeking sustained success through the implementation of a standard parameters for sizes;
- customers seeking confidence in an organization's ability to consistently provide products and services conforming to their requirements;
- organizations seeking confidence in their supply chain to ensure that the product and service requirements are met;
- organizations and interested parties seeking to improve communication through a common understanding of the vocabulary used in quality management;
- organizations performing conformity assessments against the requirements of deity making
- providers of training, assessment or advice in quality control & management;
- developers of related standards.

Fundamental Concepts and Principles:

- **vykhyā dakṣiṇāmūrti** - The form which is holding explanatory mudra (hand-gesture).
- **geya dakṣiṇāmūrti** - The form which is associated with vīṇā (musical instrument).
- **yoga dakṣiṇāmūrti** - The form which is without vyakhyana mudra or vīṇā and this form could be sculpted in many different ways.
- This can be sculpted to be in a sitting on a stone pedestal or in a standing position.
- His left or right foot presses down the apasmara-bhūta.
- This is surrounded by various kinds of animals and adorned with various kinds of serpents.
- It is associated with various groups of sages, siddhas and vidyadharas, bhuta-groups, kinnaras and others.

Directions for making **geya dakṣiṇāmŪrti**

1. The kataka-mudra held in the hands may be shown as facing upwards, downwards or not facing up and down, according to the position of other hands.
2. The right hand and the left hand should be shown as holding the vīṇā-instrument.
3. The right hand holding the kaṭaka-mudra should rest on the front part of the vīṇā. Or, the right hand with kaṭaka-mudra may be shown as resting on the upper part of the right thigh.
4. The rounded half-spherical part of the vīṇā should be above the right thigh and the other end of it should be above the kaṭaka-mudra of the left hand. The ending part of the vīṇā on the left should have a projection up to one part of the basic measurement (bhaga TBC) and the half-spherical part should have a projection of more than one part.
5. The diameter of the half-spherical part(kolaka) should be 12 inches (16 angulas) and its circumference may be 4.5 inches (6 angulas). Its height should be half of its diameter.
6. From the line passing through depression in the throat (hikka-sutra), the forearm and the wrist should be at a distance of 30 angulas. The distance between the wrist of other hand and the navel should be one 9 inches (tālā - 12 angulas)

References

The above standards has been taken into consideration from **kāmika āgama, uttara pada, chapter 57 Geya dakṣiṇāmŪrtisthāpana vidhiḥ** which is foremost among the *śaiva-āgama*. At the time of publication, the edition indicated was valid. All the standards are subjected to revision considering that it is compliant to *veda-āgama*. All the interested parties are encouraged to investigate the possibility of applying the improvements in above standards.
