Your Divine Holiness,

It was so amazing Learning how you single handedly and tirelessly started reviving KAILASA worldwide. Even While having to endure over two decades of social, political, religious, economic, legal and digital persecution.

I congratulate the SPH for the recent acknowledgment by the United Nation regarding this matter. During these trying times, the KAILASA nation has opened its doors to protect all those in need and for life positive policies sourced from Hinduism.

It has been eye opening how you have enriched millions of people around the world with your blessings of love and caring.

Alpa and Alkesh Patel of San Diego, California started talking about KAILASA. In turn I started listening to your sermons. Which has been opening knowledge of enlightenment. One Example is I learned how to meditate and unclutch. Which has been a wonderful daily practice.

Respectfully,

Joanne Garnett
